

## Upcoming Conference News

---

### PPC Update

Steve Kelley, PPC Chair & Violeta Ilik, PPC Vice-Chair

We hope you're all registered for the 32nd Annual NASIG conference because it's just around the corner, and we're looking forward to seeing everyone there. We're also pleased to share the Great Ideas Showcase and Snapshot Session presentations for the 2017 conference.

If you haven't had a chance, check out the preconference workshops we're offering:

- Terry Reese and Shana McDanold are offering two workshops for beginning and advanced MarcEdit users.
- Cheryl Thompson is leading a preconference on managing research data and providing data services.
- Maria Collins and Kristen Wilson are offering a preconference on managing technical services projects and workflows.
- Genya O'Gara and Medeline Kelly are leading a workshop on collections assessment.
- Amber Billey and Robert Rendall are offering a workshop on linked data for serialists.

We will also have Vendor Lightning Talks again this year. These talks offer vendors an opportunity to share brief looks at new products and services, as well as updates on products.

See you in Indy!
